Health Screening Centre

YOUR HEALTH, OUR PRIORITY

PRINCE COURT

MEDICAL CENTRE

for you. for life.

Comprehensive Health Screening Services

At Prince Court Medical Centre, our Health Screening Centre offers an extensive range of state-of-the-art and comprehensive health screening services, tailored to cater to your unique needs. With our commitment to excellence, we strive to provide you with the highest quality of care and advanced diagnostic tools, ensuring a thorough evaluation of your health. Upon completing your health screening, you will receive a personalised medical report on the same day*, presenting a detailed analysis of your results. Our team of highly experienced clinicians will be by your side to guide you through the findings and address any questions or concerns you may have.

WHAT TO BRING?

National Registration Identification Card (NRIC)

Work Permit/Employee Pass or Passport (for foreigners)

Current medications (if applicable)

Loose-fitting, comfortable clothing

Comfortable, closed-toe shoes with non-slip soles

PREPARATION

- Fasting: Kindly fast for 8 hours before the tests. You may drink plain water during this fasting period.
- Medications: If you have high blood pressure, you may continue taking your routine morning medicine until your blood sample is taken.
- Stress Test: If you are scheduled for a Stress Test, remember to bring along an additional change of clothes and suitable footwear for the test.
- Pap-smear: For Pap-smear, it is best to schedule the test 3 days after the last day of your menstruation.
- Time Allocation: Please allocate 3 - 4 hours for the completion of all procedures.

OPERATING HOURS

Monday to Friday : 8.00am to 4.00pm
Saturday : 8.00am to 1.00pm
Closed on Sunday and Public Holiday

Any enquiries please contact us:
Health Screening 1 (Ground floor, 1c),
+603-2160 0888 Ext: 8883

* Report availability and turnaround times are subject to the appointment and may vary based on the complexity of the screening and testing involved.

* Meal vouchers will be provided after completing the health screening process.

* One time Registration Fee of RM50 applies for new patient (RM10 for existing patient)

ABOVE 60 YEARS

SENIOR WELL MALE RM1150

ROUTINE PROCEDURES

- Consultation & physical examination by doctor
- Explanation of screening report by doctor
- Vital signs monitoring (BP, pulse, temperature)
- Vision testing
- Pure tone audiometry

RADIOLOGICAL EXAMINATION

- Chest X-ray with report by radiologist
- Ultrasound abdomen & pelvis with report by radiologist
- DEXA Scan (2 region) with report by radiologist

CARDIOLOGICAL ASSESSMENT

- Resting ECG

SPECIALISED ASSESSMENT

- Nutrition Screening / assessment
- Ophthalmic screening

LABORATORY TEST

- Fasting glucose
- HbA1c
- Bone metabolism profile
- Uric Acid
- Renal function test
- Liver function test
- Lipid profile
- Thyroid stimulating hormone
- Free Thyroxine
- Alpha fetoprotein (AFP)
- Carcinoembryonic antigen (CEA)
- Treponema Pallidum Hema-Agglutination (THPA)
- Iron
- Full blood count
- Peripheral blood film
- Erythrocyte sedimentation rate (ESR)
- Hepatitis B screening (Surface antigen & antibody)
- Rheumatoid arthritis factor
- ABO and rhesus blood grouping
- Urine FEME
- PSA
- VDRL

SENIOR WELL FEMALE RM1200

ROUTINE PROCEDURES

- Consultation & physical examination by doctor
- Explanation of screening report by doctor
- Vital signs monitoring (BP, pulse, temperature)
- Vision testing
- Pure tone audiometry

RADIOLOGICAL EXAMINATION

- Chest X-ray with report by radiologist
- Ultrasound abdomen & pelvis with report by radiologist
- DEXA Scan (2 region) with report by radiologist
- Mammogram

CARDIOLOGICAL ASSESSMENT

- Resting ECG

SIGNATURE MALE RM1800

ROUTINE PROCEDURES

- Consultation & physical examination by doctor
- Explanation of screening report by doctor
- Vital signs monitoring (BP, pulse, temperature)
- Vision testing
- Pure tone audiometry
- Body fat analysis
- Diet & wellness counselling
- Ophthalmic screening

RADIOLOGICAL EXAMINATION

- Chest X-ray with report by radiologist
- Ultrasound abdomen & pelvis with report by radiologist
- DEXA Scan (3 region) with report by radiologist

CARDIOLOGICAL ASSESSMENT

- Resting ECG
- Exercise stress test with report by cardiologist

LABORATORY TEST

- | | |
|--|-----------------------------------|
| • Fasting glucose | • Rheumatoid arthritis factor |
| • HbA1c | • ABO and rhesus blood grouping |
| • Bone metabolism profile | • Male hormonal profile |
| • Uric Acid | - Testosterone level |
| • Renal function test | - Prolactin |
| • Liver function test | - Cortisol |
| • Lipid profile | • Carcinoembryonic antigen (CEA) |
| • Thyroid function test | • PSA (prostate specific antigen) |
| • Urine FEME | - CA 199 |
| • Alpha fetoprotein (AFP) | - CEA |
| • Full blood count | |
| • Peripheral blood film | |
| • Erythrocyte sedimentation rate (ESR) | |
| • Hepatitis A antibody screening (IgG) | |
| • Hepatitis B screening (Surface antigen & antibody) | |
| • Hepatitis C antibody screening (IgG) | |
| • HIV screening (HIV-1 antigen & HIV-1 and HIV-2 antibody) | |

SIGNATURE FEMALE RM2050

ROUTINE PROCEDURES

- Consultation & physical examination by doctor
- Explanation of screening report by doctor
- Vital signs monitoring (BP, pulse, temperature)
- Vision testing
- Pure tone audiometry
- Body fat analysis
- Diet & wellness counselling
- Ophthalmic screening
- Pap smear (liquid based cytology)

RADIOLOGICAL EXAMINATION

- Chest X-ray with report by radiologist
- Ultrasound abdomen & pelvis with report by radiologist
- DEXA Scan (3 region) with report by radiologist
- Mammogram/breast ultrasound with report by radiologist

CARDIOLOGICAL ASSESSMENT

- Resting ECG
- Exercise stress test with report by cardiologist

LABORATORY TEST

- | | |
|--|--------------------------------|
| • Fasting glucose | • Full blood count |
| • HbA1c | • Peripheral blood film |
| • Uric Acid | • Renal function test |
| • Lipid profile | • Liver function test |
| • Urine FEME | • Thyroid function test |
| • Bone metabolism profile | • Female hormonal profile |
| • Alpha fetoprotein (AFP) | - Follicle stimulating hormone |
| • Erythrocyte sedimentation rate (ESR) | - Luteinizing hormone |
| • Hepatitis A antibody screening (IgG) | - Oestradiol (E2) |
| • Hepatitis B screening (Surface antigen & antibody) | - Prolactin |
| • Hepatitis C antibody screening (IgG) | - Cortisol |
| • HIV screening (HIV-1 antigen & HIV-1 and HIV-2 antibody) | • Female tumour markers |
| • Rheumatoid arthritis factor | - CA 125 |
| • ABO and rhesus blood grouping | - CA153 |
| | - CA 199 |
| | - CEA |
| | (carcinoembryonic antigen) |

Health Screening Packages

ESSENTIAL MALE / FEMALE RM600
